Year of Passing	2019	2017
Score	74%	81%

### INTERNSHIPS

#### International Model United Nation | 3 Week(s)

- Hosted campus questionnaires to answer queries and resolve doubts student has acted as the main point of contact for student requiring information about on campus.

#### General Electric | 1 Week(s)

- helped team with assignment and complete the task provided generally I enjoy while doing the task but sometimes it feels so hard overall great experience.

### PROJECTS

#### Wireless bot using Arduino uno | 1 Week(s)

- In this project we build wireless four wheeler bot using Arduino uno 101, motor driver, HC 05 Bluetooth module etc. for the college competition Named soccermania this bot is capable of playing soccer game and we fully controlled the bot using phone

#### Home Automation using Arduino uno | 2 Week(s)

- In this project we use motor driver, Bluetooth module and Arduino uno to make all home electronics operatable by phone like fan, bulb, etc. for doing that we program Arduino uno to only supply the electricity where we want and when we want and stop it where we dont its all operatable by phone and possible with the help of motor driver connected to Arduino.

### ACHIEVEMENTS

- In school I manage all the technical and computer work of teachers and also a class monitor in school  
- Member of college technical club named FLUX and other club name FIAT , also 1 year NCC experience in BE / B.Tech
